SUMMARY

Computer Science Engineering student with hands-on experience in full-stack development, REST APIs, and AI-powered applications. Strong foundation in data structures and algorithms, with 600+ problems solved across LeetCode and GeeksforGeeks. Experienced in building web applications using React.js, Node.js, Django, and MongoDB.

SKILLS

Languages: Java, C++, Python, JavaScript, TypeScript, SQL.

Frameworks: React.js, Node.js, Express.js, Django, Tailwind CSS, Bootstrap.

Databases & Tools: MongoDB, MySQL, Git, GitHub, REST APIs.

Additional Skills: HTML5, CSS3, DAX, Power BI, Power Query, data modelling.

EXPERIENCE

Indian Institute of Technology (IIT), Ropar Dec 2025 – Jan 2026

Software Engineering Intern Online

- Engineered responsive web interfaces using HTML5, CSS3, and JavaScript, optimizing UI performance and cross-browser compatibility.
- Developed backend services using Django and MongoDB, integrating REST APIs for reliable data storage and application functionality.

Systech Solutions Pvt Ltd, Chennai Jun 2026 – Jul 2026

Data Analytics Intern Offline

- Built and replicated client-style Power BI dashboards using Power Query, DAX, data modelling, KPI cards, slicers, and advanced visualizations, including fiscal calendars, RLS, and Month-Rolling calculations.
- Applied SQL window functions and gained exposure to Microsoft Fabric and the TDSG data pipeline across CSV, TXT, API, and Excel data sources.

PROJECTS

Bolt social media | React.js, Node.js, Express.js, MongoDB | GitHub Mar 2026 – Jun 2026

- Developed a full-stack social networking platform using React, Node.js, Express, and MongoDB, implementing real-time messaging with Server-Sent Events (SSE) and optimistic state updates with Redux Toolkit.
- Integrated a Groq-powered AI assistant with conversation memory, Clerk authentication, ImageKit media delivery, and Inngest-based background processing.

E-Commerce Web Application | *React.js, Tailwind CSS, Node.js* | GitHub Oct 2023 – Dec 2023

- Developed a highly responsive, scalable e-commerce platform leveraging React.js for the frontend and Tailwind CSS for rapid UI prototyping.
- Implemented client-side routing via React Router and engineered optimized state management logic to facilitate seamless cart operations and dynamic product filtering.

EDUCATION

Kingston Engineering College | CGPA: 8.0/10 Vellore, TN, India

Bachelor of Engineering in Computer Science and Engineering Expected 2027

- **Core Coursework**: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Cloud Computing, Operating Systems, Computer Networks

Gangadhara Matric. Hr. Sec. School | Percentage: 87% Ranipet, TN, India

Higher Secondary Certificate (HSC) | Computer Science Group April 2023

ACHIEVEMENTS

Competitive Programming: Solved 600+ algorithmic and data structure problems across LeetCode and GeeksforGeeks. Achieved an 1850+ contest rating with Knight Badge on LeetCode through competitive programming contests.

Technical Events: Won 14 First Prizes and 2 Runner-Up finishes in inter-college coding, debugging, and technical symposium events.

NPTEL Certifications: NPTEL Certifications: Gold — Programming in Java (96%), Python for Data Science (91%); Silver — Data Structures and Algorithms using Python (85%), The Joy of Computing using Python (85%), Programming in Modern C++ (81%); DBMS (67%).
