SUMMARY

Computer Science Engineering student with hands-on experience building full-stack web applications using React.js, Django, Node.js, and MongoDB. Strong foundation in Data Structures and Algorithms with 300+ coding problems solved. Proven ability to develop responsive user interfaces, RESTful APIs, and scalable backend systems.

EDUCATION

Kingston Engineering College

Bachelor of Engineering in Computer Science and Engineering

Ranipet, TN, India

Expected 2026

- **CGPA:** 8.0/10.0
- **Core Coursework:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Cloud Computing, Operating Systems, Computer Networks

EXPERIENCE

Indian Institute of Technology (IIT), Ropar

Software Engineering Intern

Dec 2025 – Jan 2026

Virtual

- Engineered responsive web interfaces utilizing HTML5, CSS3, and JavaScript, optimizing UI performance and driving enhanced cross-browser user retention.
- Architected robust backend services utilizing Django and MongoDB; orchestrated version control via Git in a highly collaborative open-source ecosystem.
- Integrated Django backend APIs with MongoDB databases, ensuring reliable data storage, seamless communication, and stable core application functionality.

PROJECTS

E-Commerce Web Application | React.js, Tailwind CSS, Node.js | [GitHub](#)

Oct 2023 – Dec 2023

- Developed a highly responsive, scalable e-commerce platform leveraging React.js for the frontend and Tailwind CSS for rapid UI prototyping.
- Implemented client-side routing via React Router and engineered optimized state management logic to facilitate seamless cart operations and sub-second dynamic product filtering.

Enterprise Blog Application | Django, MongoDB, JavaScript | [GitHub](#)

Mar 2024 – Jul 2024

- Engineered a full-stack Django application, implementing JWT-based authentication and Role-Based Access Control (RBAC) to securely manage user permissions across API endpoints.
- Optimized database queries and refined front-end assets, achieving a strictly compliant, cross-browser compatible interface with high Lighthouse performance scores.

ACHIEVEMENTS

Competitive Programming: Conquered 300+ advanced algorithmic challenges across LeetCode and GeeksforGeeks.

Hackathon Champion: Won 12 First Prizes and 2 Runner-Up finishes in inter-college coding, debugging, and technical symposium events.

NPTEL Certifications: Secured 2 Gold Medals (Programming in Java 96%, Python for Data Science 91%) and 2 Silver Medals (Data Structures & Algorithms using Python 85%, Joy of Computing 85%).

SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, C++, Java, SQL, HTML5, CSS3

Frameworks: React.js, Node.js, Express.js, Django, Bootstrap, Tailwind CSS

Databases & Tools: MongoDB, PostgreSQL, Git, GitHub, RESTful APIs, VS Code
